SYMPOSIA AND MAIN TOPICS

Plant Environment Interactions

- Plant pathogens interactions (virus, bacterial, insects, fungus, oomycetes, others)
- Novel models/genes for insect resistance
- Plant virus diagnosis and identification
- Microbial isolates for plant pest/pathogen control and growth promoters. Mechanisms of action
- Huanglongbing in citrus: tools for its management
- Plant Immune Response
- Abiotic stress Tolerance in plants
- Stress Tolerance in plants
- Plant Functional Genomics and Biotechnology
- Plant Bioinformatics

Plant Biotechnology

- Crop Genetic Improvement
- Biotechnology and Plant Breeding
- Resistance to Diseases and Insects in Transgenic Plants
- Transgenic Plants Tolerant to Abiotic Stresses
- Plant Genome Editing Technology
- Biosafety and Regulatory Issues for Transgenic and Genome Edited Crops
- Plant Expression Platforms
- Production of Vaccines, Antibodies and Other Biologicals in Plants and Their Uses

Industrial Biotechnology

- Carbohydrate biotransformations
- Enzymes and microorganisms
- Enzyme technology
- Enzyme engineering
- Metabolic engineering
- Industrial biocatalysis

Biotechnology Seeds

- Germplasm and Variety development
- Seed Biology, Production and Quality
- Seed Storage and Conservation
- Commercialization

COMMERCIAL EXHIBITION

The organizing committee of BioCubaAgro2020 BioCubaAgro2020 has the pleasure of inviting you to participate in the Commercial Exhibit that will take place as part of this International Congress. Expositors can exhibit materials, reagents, equipment and other products related to Biotechnology. The fee for stands is 450 CUC per square meter with a minimum of 6m² by exposition area. The exhibitors can organize additional technical talks or demonstrations. Equipped conference room will be available if necessary. Make your participation request via email or phone (see contacts)
